Q5 - What are your comments regarding the course design and content?

Response Rate: 80.00% (8 of 10)

1	course is designed well even without the book. The discussions were pertinent to current events and if not flowed in an order that was understandable.	
2	Very well structured course, good amount of reading, engaging.	
3	Very good content. A little vague in terms of course structure.	
4	The course is designed very well and the content is very interesting	
5	Sometimes it feels like we don't really have flow to the class. Additionally, assignments and readings need to be assigned a lot quicker than they are - I'm often struggling to find time to do them because they are assigned so last minute.	
6	I like the laid back nature of the course. With less then 10 in the class...we are able to have a relaxed environment with lots of group discussion.	
7	I actually like it a lot - it is designed to make me think outside the traditional view	
8	Can be very dry often	

Q6 - Which aspects of the course (including tests, lectures, assignments, etc.) did you find most useful?

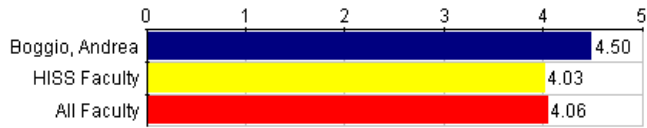

Response Rate: 70.00% (7 of 10)

1	lectures	
2	Professor lecturing was huge for me - really nice to hear from someone that truly understands the topic	
3	Lectures and reading group assignments were the most helpful.	
4	I found the class discussions most useful	
5	I found the readings useful but some of them were rather dry and often hard to follow. I feel like I did better with the comprehension of the readings as the semester went out. I like how the readings were broken up into different sections and people would present on the part they were assigned.	
6	I enjoyed not having a book and like when professor's know they will not have their students use a book so instead of making them purchase it for \$200, it saves them this money. Lectures were easy to follow but it was sometimes hard to understand which concepts where really important and which were not. Readings on your own assignment were fine but it was difficult to keep up with the other readings other students were assigned to prepare for the tests. I liked the online tests but wish we got physical feedback.	
7	Debates in Class	

Q7 - What (if anything) could be done to improve this course?

Response Rate: 60.00% (6 of 10)

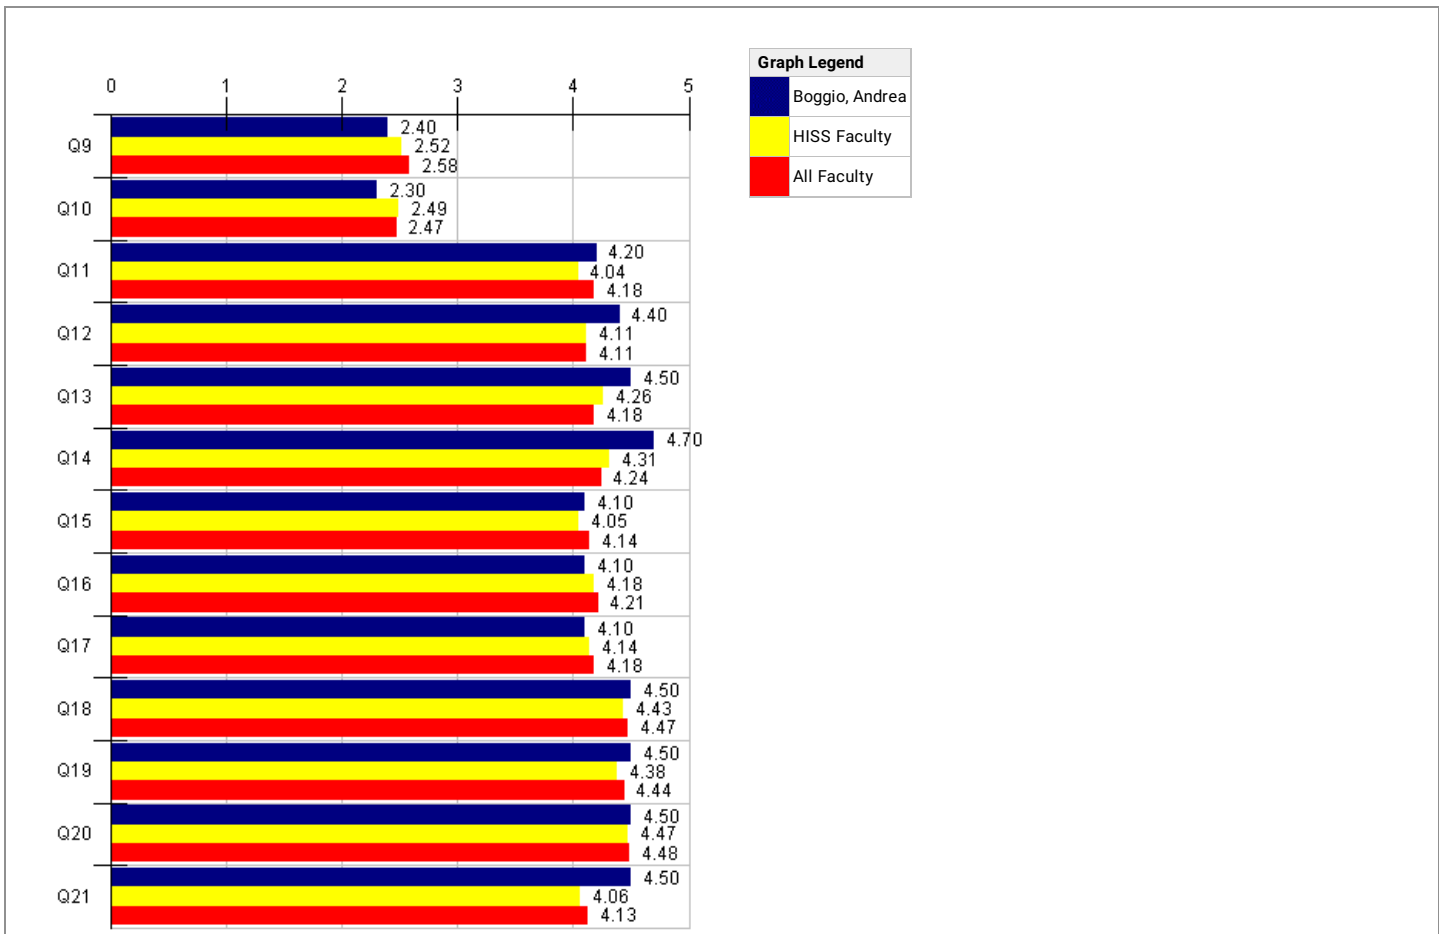

1	bring in some more "fun" or attractive topics	
2	Shorter readings and test feedback	
3	More writing on the board would be cool!	
4	More warning for tests, reading group papers, etc.	
5	Maybe a little more clarification on what is expected out of an assignment and a bit more feedback from work that was turned in. Also, I feel like a small study guide with a broad range of topics to cover would really help people prepare for the tests.	
6	Just added a little more structure in terms of assignments. Maybe had a few presentations.

Q22 - What are your comments regarding the instructor of the course?

Faculty:	Boggio, Andrea	
Response Rate:	60.00% (6 of 10)	
1	Professor Boggio is probably my favorite law professor - perfect balance of teaching ability and knowledge	
2	Professor Boggio is a great professor. He challenges us in the class, and is great at applying real world, and current examples in class	
3	Professor Boggio is very intelligent and has a lot of experience. Because he is so smart he seems to present the material very rapidly which made it hard to keep up with sometimes. However, I learned a lot from this course and really enjoyed having him as a professor.	
4	I really enjoy Boggio as a legals professor. One of the best in this department.	
5	Does not give enough time to do the homework/assingments	
6	Awesome ! Had him for 3 classes. Learn a lot in the class and it helps in the real world !
